

Name: \_\_\_\_\_

**Do the Math**

Write the decimal and the fraction for each shaded part.

decimal: \_\_\_\_\_ fraction: \_\_\_\_\_ decimal: \_\_\_\_\_ fraction: \_\_\_\_\_

decimal: \_\_\_\_\_ fraction: \_\_\_\_\_ decimal: \_\_\_\_\_ fraction: \_\_\_\_\_

Shade the model to show the decimal.

**Check**

9. How is a tenths model different from a hundredths model?

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Multiply to find two equivalent fractions for each.

1.  $\frac{2}{7} =$  \_\_\_\_\_

2.  $\frac{1}{8} =$  \_\_\_\_\_

3.  $\frac{3}{4} =$  \_\_\_\_\_

4.  $\frac{1}{3} =$  \_\_\_\_\_

5.  $\frac{7}{8} =$  \_\_\_\_\_

6.  $\frac{1}{4} =$  \_\_\_\_\_

Divide to find two equivalent fractions for each.

7.  $\frac{12}{24} =$  \_\_\_\_\_

8.  $\frac{10}{30} =$  \_\_\_\_\_

9.  $\frac{9}{36} =$  \_\_\_\_\_

10.  $\frac{6}{6} =$  \_\_\_\_\_

11.  $\frac{12}{20} =$  \_\_\_\_\_

12.  $\frac{20}{24} =$  \_\_\_\_\_

Check

13. Are the fractions  $\frac{4}{8}$  and  $\frac{1}{2}$  equivalent? How do you know?

\_\_\_\_\_
